TECHNOLOGY
BEYOND
the POINT
of NUTRITION™

Active AgriScience Inc. supports the farming community by providing innovative, effective and economical products that increase yields. A leader in plant nutrient and bioactive compound research and technology, Active AgriScience uses rigorous scientific methods to develop and enhance products to improve farm production and profits.

ACTIVE INGREDIENTS:

12% N-(n-butyl) thiophosphoric triamide (NBPT).

INACTIVE INGREDIENTS:

88% (preservative, colorant, spreading agents, surfactant, product performance enhancer).

For distribution and sale in the USA, Active AgriScience products are exclusively manufactured under license by Hydrite

STABILIZER™

**NITROGEN
STABILIZING
TECHNOLOGY**

Active STABILIZER™
BENEFITS

Active STABILIZER™ prevents nitrogen loss through ammonia volatilization ensuring applied fertilizer is not wasted. With its low cost and unique variable application rate farmers can treat as necessary to maximize their return on investment.

DIRECTIONS FOR USE

ALWAYS READ LABEL BEFORE USE.

Blending into UAN: Use 1 - 2 qt of Active STABILIZER™ per one ton of UAN solution. Fill spray tank with half the desired amount of UAN. Measure the recommended quantity of Active STABILIZER™ and add to the tank. Mix well. Add other products at this stage, if needed. Add the second half of the UAN solution. Continue mixing until well blended.

Blending into UREA: Use 1.2 - 2.4 qt of Active STABILIZER™ per 1 ton of Urea. For uniform blending, use a blender with impregnation equipment. Weigh the urea and transfer to blender. Add the required amount of Active STABILIZER™ to the urea in the blender. Blend until the Active STABILIZER™ is uniformly mixed into the urea. Do not add any other fertilizer material until Active STABILIZER™ is thoroughly distributed. If mixture appears wet or sticky, a drying agent may be added at this time.

ACTIVE AGRISCIENCE DISCLAIMER: Presented Data will not guarantee the future efficacy and product attributes as these vary greatly related to weather conditions soil types and genetics of crops. It is understood and agreed that Active AgriScience Inc. ("Active") does not guarantee that use of its Products will yield any specific result. Active's legal liability, and that of its employees or agents, arising from use of its products shall be limited to the cost paid for the product regardless of whether any loss arose from Actives own negligence, breach of contract, or any other cause. Under no circumstance shall Active be liable, beyond the cost paid for the product, for direct consequential, incidental, or special damages, including, but not limited to, damage or destruction of a crop, or contamination of any property.
