**1995**  
*Best Sanitizers, Inc (BSI) is founded in Penn Valley, California*

**2001**  
*BSI is the first company to achieve a D2 rating for alcohol/quat-based surface sanitizer*

**1996**  
*BSI is the first company to achieve an E3 rating for alcohol-based hand sanitizer*

**2006**  
*New manufacturing facility in Walton, Kentucky goes into operation*

# We help you take the guesswork out of being compliant.

Since 1995, Best Sanitizers has been providing the food processing industry with the highest quality products and support available, and we continue to explore and innovate new and better ways to deliver hand and surface hygiene solutions. Our stringent practices and policies ensure that our products do what they say they'll do... so you can use them with confidence.

cGMP, FDA and EPA/  
FIFRA compliant  
factory

Highest QA and QC  
standards and  
practices

Private label  
blending for multiple  
Fortune 500  
companies

## 2008

First expansion at  
Walton, Kentucky facility  
completed - sq ft totaling  
50,000

## 2015

Second expansion at  
Walton, Kentucky facility  
completed - sq ft totaling  
120,000

## 2020

Opens new warehouse  
facility in Walton,  
Kentucky - sq ft  
totaling 45,000

## 2010

Headquarters relocate  
to Nevada City,  
California

## 2017

Introduces a quat-free  
surface sanitizer to the  
Alpet D2 family of  
products

## No-Rinse, Alcohol/Quat Cleaner, Surface Sanitizer and Disinfectant

With new claims and uses, Alpet® D2 Surface Sanitizer can now do even more to reduce the risk of cross-contamination in your facility.

- Ready-to-use, no-rinse cleaner, surface sanitizer and disinfectant
- 58% IPA/Quat formula
- Kills 99.999% of 9 tested pathogens as a food contact surface sanitizer
- 60 seconds to sanitize food contact surfaces, including non-porous gloves<sup>1</sup>
- 10 seconds to sanitize non-food contact surfaces, including non-porous footwear<sup>2</sup>
- 5 minutes to disinfect hard, non-porous surfaces
- Highly evaporative / non-corrosive / ideal for water sensitive equipment and low-moisture environments
- NSF listed D2 classification
- EPA registered
- Kosher, Pareve and Halal certified

**Efficacy:** Alpet D2 Surface Sanitizer is an effective sanitizer and disinfectant against the following pathogens on hard, non-porous surfaces.

<sup>1</sup> Food Contact Surfaces    <sup>2</sup> Non-Food Contact Surfaces

**Sanitization:**

- Enterobacter sakazakii*<sup>1</sup>
- Escherichia coli*<sup>1</sup>
- Escherichia coli* O157:H7<sup>1</sup>
- Klebsiella pneumoniae*<sup>1,2</sup>
- Listeria monocytogenes*<sup>1</sup>
- Pseudomonas aeruginosa*<sup>1</sup>
- Salmonella enterica*
- Staphylococcus aureus*<sup>1,2</sup>
- Vibrio cholerae*<sup>1</sup>

**Disinfection\*:**

- Staphylococcus aureus*
- Staphylococcus aureus* MRSA
- Enterococcus faecium* VRE
- Escherichia coli* O157:H7
- Pseudomonas aeruginosa*
- Listeria monocytogenes*
- Salmonella enterica* (formerly choleraesuis)
- Norovirus (Feline Calicivirus as surrogate)
- Influenza A H1N1
- Hepatitis B Virus
- Human Immunodeficiency Virus Type 1 (HIV-1)

\*Alpet D2 Surface Sanitizer is included on the EPA's N list of Disinfectants for Use Against SARS-COV-2

BSI #	Hydrite #	Product Description
SS10010	FP900909	Alpet D2 48x4 oz bottles (finger-pump bottle)
SS10009	FP900911	Alpet D2 4x1 quart bottles (includes 4 trigger sprayers)
SS10003	FP900908	Alpet D2 12x1 quart bottles (includes 12 trigger sprayers)
SS10002	FP900903	Alpet D2 5 gallon pail w/ spigot

SS20002	—	Pump-Up Sprayer - 3 gallon - secondary container (empty)
USP20069	—	Secondary Container Tag, Alpet D2 Surface Sanitizer

**BEST SANITIZERS INC.**  
**ALPET**<sup>®</sup>  
 Surface Sanitizing **D2**  
 Wipes

Self-closing lid helps prevent drying

**For Use in Food Processing Plants, Retail and Food Service Establishments.**

Alpet<sup>®</sup> D2 Surface Sanitizing Wipes are a durable, ready-to-use, no-rinse, lintless wiping system. Alpet D2 Surface Sanitizing Wipes are available as a 90 count heavy-duty wipe or a 160 count medium-duty wipe. As with all Best Sanitizers wiping systems, the spring-loaded lid closes on its own to prevent the wipes from drying, which helps eliminate unnecessary waste.

- Clean and Sanitize with one product
- Sanitizes Food Contact and Non-Food Contact Surfaces
- Kills 99.999% of Staphylococcus aureus, Escherichia coli, Salmonella enterica (formerly typhimurium), and Listeria monocytogenes as a food contact surface sanitizer.
- Kills 99.9% of tested pathogens in 10 seconds as a non-food contact surface sanitizer
- 58% IPA/quat formula ideal for water sensitive equipment
- Ready-to-use, no-rinse, lintless wipe for food contact surfaces
- Spring-loaded lid to prevent drying
- NSF listed D2 classification
- Kosher, Pareve and Halal certified

**Also Available:**

**Best Refillable Wiping System**

- Dry wipes in 90 or 160 count
- Fill with the product of your choice
- Reusable canister w/ spring-loaded lid to prevent drying

**Tough on Germs, But Gentle On Hands... Even With Repeated Use.**

Alpet® Q E2 is an ideal foaming soap for all food processing environments. Engineered with a powerful Benzalkonium Chloride formula, Alpet Q E2 is an ideal foaming soap for all food processing environments.

- Over 3,150 applications per gallon
- 0.12% Benzalkonium Chloride (BAC) formula
- Formulated to meet all requirements for food handling
- pH balanced to skin (pH 5.5) and formulated with emollients to keep skin healthy
- NSF certified E2 classification
- Kosher, Pareve and Halal certified
- Rich, thick foam
- Available in 5 configurations

Is hand washing alone “good enough?” In the study below, the effects of hand hygiene on bacteria can be seen.

Testing performed by Saraya Biochemical Laboratory

## Why Hand Washing Alone Isn't Enough:

The graphic at the right shows the areas most often missed with inadequate, or "simple" hand washing. Our **Alpet® E3 Plus Hand Sanitizer Spray** (previous page) is atomized to saturate and kill germs where they hide: under fingernails, under cuticles and in the creases and crevices of fingers and hands.

- Less Often Missed

Taylor, L. Nursing times 74, 54 (1978)

## BSI Industrial Dispenser Series

### Gallon Wall Bracket

Its simple design and stainless steel construction makes clean up a breeze.

### 1-2 Knockout Wrist-Activated Dispenser

Wall mountable, stainless steel construction. For use in wet or dry environments.

### EZ-Step Wall-Mounted Foot-Activated Dispenser

This durable hands-free, foot-activated unit can dispense any of our one gallon bottles of soap or sanitizer.

### EZ-Step Portable Foot-Activated Dispenser

Our most popular industrial dispensing system within the food processing industry.

*For use with sanitizer spray only.*

### Champion Multi-Line Dispensing System

The Champion is a touchless, automatic, multi-line dispensing system designed to dispense our liquid soaps or sanitizer sprays. The Champion uses a 2-Gallon capacity reservoir and can accommodate from 1 to 5 dispensers.

### Prizefighter Dispensing System

The Prizefighter is a touchless, automatic, dispenser, constructed of stainless steel and ideal for use in wet or dry environments. Infrared sensors detect the presence of hands and dispense a premeasured application of our liquid soaps or sanitizer sprays. Uses a 3000mL capacity reservoir.

# VersaClenz & AutoMyst 2 Dispensers

Manual

Touchless

### VersaClenz All-In-One Dispenser System

This versatile system can dispense 16 different products including sprays, foams, liquids, lotions, soaps and sanitizers.

### AutoMyst 2 Touchless Hand Sanitizer Dispenser

Reduce the risk of cross-contamination with this dual-infrared sensor technology dispenser. Uses our 1000mL hand sanitizer spray pump bottles.

Tray sold separately

ADA Compliant

Universal cartridge holds up to 1250mL of soap, sanitizer, foam, liquid or lotion.

Soft cartridge optimizes evacuation and minimizes product waste.

Removable actuating mechanism assembly.

Up to 100,000 applications and 9 months to 1 year on 4 D-Cell batteries included.

Durable construction suitable for high traffic areas. Case is splash-resistant and easy to clean.

Our BSI Industrial Cleaner Series provides a quality cleaning product for every area of your facility. Combine with our line of industrial dispensing equipment for a complete cleaning solution.

## Alpet® 70/30

### RTU Industrial Cleaner

Ready-to-use cleaner for the entire facility. Highly evaporative and requires no rinsing. USP grade, Kosher certified isopropanol. Deionized, purified water. Submicron filtered.

*Configurations: 5 gallon, 50 gallon*

## BSI-45

### Degreasing Cleaner and Additive

Powerful medium foaming cleaner and degreaser and can be used alone for cleaning and degreasing of concrete, tile and steel.

*Configurations: 5 gallon, 55 gallon, 275 gallon*

## BSI-100

### RTU All-Purpose Hard Surface Cleaner

Ready-to-use hard surface cleaner. Very effective on greasy surfaces, leaves no smeary residue, and has a fresh, lemon fragrance.

*Configurations: 1 gallon, 5 gallon, 55 gallon*

## BSI-101

### Pine Oil Floor and Hard Surface Cleaner

Floor and hard surface cleaner containing pine oil. Removes tough grease and dirt and has a fresh, pine fragrance.

*Configurations: 5 gallon, 55 gallon*

## BSI-102

### Glass Cleaner

Non-streaking and highly evaporative glass cleaner. Requires dilution prior to use. Does not contain ammonia.

*Configurations: 1 gallon, 5 gallon, 55 gallon*

## BSI-103

### RTU Bathroom Cleaner

Ready-to-use bathroom cleaner. Recommended for cleaning showers, sinks, drinking fountains, faucets, etc. Effectively removes soap scum and film build-up.

*Configurations: 1 gallon, 5 gallon, 55 gallon*

## BSI-104

### RTU Bowl Bright

Ready-to-use toilet bowl and urinal cleaner. Effectively removes hard water deposits and rust.

*Configurations: 5 gallon, 55 gallon*

**BSI-200**  
**Aluminum-Safe High-Foaming Chlorinated Cleaner**

High-foaming, chlorinated cleaner designed for safe use on aluminum surfaces. Powerful cleaner for smoke residues, animal fats and oils, and surface oils. Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-215**  
**Non-VOC Biodegradable Degreaser**

A water soluble, non-VOC, biodegradable degreaser. It is designed for degreasing floors, walls, metal, equipment and other hard surfaces.

*Configurations: 5 gallon, 55 gallon, 275 gallon*

**BSI-225**  
**High-Foaming All-Purpose Neutral Cleaner**

High-foaming, all-purpose cleaner and degreaser which contains no phosphates. Can be used as a base concentrate by adding acid or alkaline boosters. NSF registered, Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-350**  
**RTU Enzymatic Drain and Pipe Cleaner**

Enzyme-based drain and pipe cleaner. It provides preventative and curative treatment to avoid blockage in pipes.

*Configurations: 5 gallon, 55 gallon, 275 gallon*

**BSI-400**  
**High-Foaming Acid Cleaner**

High-foaming, heavy-duty liquid cleaner ideal for rapid soil attack and easy rinsing. Good for scale and deposit removal, and shining stainless steel surfaces. NSF registered, Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-500**  
**High-Foaming Heavy-Duty Caustic Cleaner**

High-foaming, heavy-duty caustic cleaner and degreaser. Contains powerful mixture of surfactants and chelating agents for use in difficult cleaning applications. Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**Chemical Color Codes**

*General cleaners, neutral pH, safe on soft metals*

*Acid based cleaners for inorganic soils, low pH, use only on stainless steel or aluminum*

*Alkaline based cleaners for organic soils, high pH, use only on stainless steel and black iron*

*Additives*

**BSI-250**  
**High-Foaming All-Purpose Alkaline Cleaner**

High-foaming, all-purpose cleaner and degreaser. May be applied by brush or with foaming units on equipment, utensils, walls, and floors in all departments of meat, poultry, and general food processing plants.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-275**  
**Concentrated Liquid Warewashing Detergent**

A highly concentrated, fragrance-free liquid detergent designed to remove tough, baked-on foods for manual warewashing. It is an effective product to manually wash flatware, dishes, and utensils.

*Configurations: 1 gallon, 5 gallon, 55 gallon*

**BSI-525**  
**High-Foaming Chlorinated Cleaner**

High-foaming, all-purpose liquid detergent which combines surface-active agents with the power of alkalinity and chlorine bleach. Contains sequestering and chelating additives for effective performance in hard water conditions. Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-550**  
**Heavy-Duty CIP Cleaner**

Non-foaming, liquid alkaline cleaner. Contains a powerful blend of caustic and sequestering agents. Designed to be used as a heavy duty CIP cleaner and features outstanding performance on hard-to-remove fat soils. Suited for rendering operations. Kosher certified.

*Configurations: 1 gallon, 5 gallon, 55 gallon, 275 gallon*

**BSI-1300**  
**Industrial General Purpose Defoamer**

BSI-1300 is a highly effective 10% active industrial grade silicone antifoam emulsion. It combines excellent dilution stability with effective defoaming efficiency in a wide range of applications. This product can be used to suppress and control foam in both hot and cold applications over a wide pH range.

*Configurations: 1 gallon, 5 gallon, 55 gallon*

Each of the BSX Boot Scrubbers use an open, sanitary design which eliminates hidden and hard to reach areas that are difficult to clean and can harbour pathogens. Components of each unit can be easily removed for cleaning and inspection.

## **BSX1000** High Capacity Walk Through Boot Scrubber Unit - Wet

The BSX1000 is designed for facilities where high throughput is critical. The user activates the system by stepping onto the platform. Diluted cleaning solution is sprayed onto rotating brushes and transferred onto the boots from a stainless steel venturi dilution valve and metering tip to provide the desired PPM. We recommend using Alpet® No-Rinse Quat Sanitizer with the BSX1000 to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The BSX1000 is available with various brush configurations to better meet your specific needs – contact a Best Sanitizers representative for details. Each of these configurations provide multiple points of contact between brush and boot. These units are designed for larger spaces and higher traffic applications.

## **BSX900** Compact Walk-Through Boot Scrubber Unit with Dual Sole Brushes - Wet

The user activates the system by stepping onto the platform. Diluted cleaning solution is sprayed onto rotating brushes and transferred onto the boots from a stainless steel venturi dilution valve and metering tip to provide the desired PPM. We recommend using Alpet® No-Rinse Quat Sanitizer to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The BSX900 uses two rotating horizontal sole brushes, has a small footprint, and is ideal for tight spaces and medium traffic applications.

## **BSX800** Compact Walk Through Boot Scrubber Unit - Wet

The user activates the system by stepping onto the platform. Diluted cleaning solution is sprayed onto rotating brushes and transferred onto the boots from a stainless steel venturi dilution valve and metering tip to provide the desired PPM. We recommend using Alpet® No-Rinse Quat Sanitizer to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The BSX800 is available with various brush configurations to better meet your specific needs – contact a Best Sanitizers representative for details. The BSX800 has a small footprint and is ideal for tight spaces and medium traffic applications.

BSI #	Hydrite #	Product Description
BSX1000-DAF	–	Boot Scrubber w/ Sole Brush & 2-1/2" Side Disk and Sanitary Leveling Feet
BSX1000S-DAF	–	Boot Scrubber w/ Sole Brush Only and Sanitary Leveling Feet
BSX1000V-DAF-6	–	Boot Scrubber w/ Sole & 6" Tall Brushes and Sanitary Leveling Feet
BSX1000V-DAF-9	–	Boot Scrubber w/ Sole & 9" Tall Brushes and Sanitary Leveling Feet
BSX900-DAF-115V	–	BSX900 Boot Scrubber Compact Walk-Through Unit W/ Dual Sole Brushes - 115VAC, 230VAC & 480VAC available
BSX800-DAF	–	Boot Scrubber w/ Sole & 2-1/2" Side Disk Brushes and Sanitary Leveling Feet
BSX800V-DAF-6	–	Boot Scrubber w/ Sole & 6" Tall Vertical Brushes and Sanitary Leveling Feet
BSX800V-DAF-9	–	Boot Scrubber w/ Sole & 9" Tall Vertical Brushes and Sanitary Leveling Feet

## **BSX600** Single Boot Scrubber Unit w/ Triple Rotating Brushes - Wet

The user places one foot at a time into the unit and activates the system by grabbing the hand rail. We recommend using Alpet® No-Rinse Quat Sanitizer to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). Two rotating side brushes and one rotating sole brush clean the boot while cleaning solution and water is sprayed onto the brushes through a stainless steel venturi dilution valve and metering tip to provide the desired PPM. The BSX600 is ideal for tight spaces and low traffic applications.

## **BSX400** Single Boot Scrubber Unit - Wet

The BSX400 is a wet, single boot scrubber. It uses two stationary side brushes and one rotating sole brush to thoroughly clean the boot. The user places one foot at a time into the unit and activates the system by grabbing the hand rail. We recommend using Alpet® No-Rinse Quat Sanitizer to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). Diluted cleaning solution is sprayed onto the brushes and transferred onto the boot from a stainless steel venturi dilution valve and metering tip to provide the desired PPM. The BSX400 is ideal for tight spaces and low traffic applications.

## **BSX200** Dual Boot Scrubber Unit

The BSX200 is a rugged, walk through, dual boot scrubber available in a wet or dry version. With the wet unit, the system is activated when a user steps onto the platform. Cleaning solution is sprayed onto the boot and brushes. We recommend using Alpet® No-Rinse Quat Sanitizer with the BSX200 to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The user moves their boot back and forth through the brushes supplying the mechanical scrubbing action. The BSX200 is ideal for tight spaces and low traffic applications.

## **BSX100** Single Boot Scrubber Unit

The BSX100 is a rugged, single boot scrubber available in a wet or dry version. With the wet unit, the system is activated when a user steps onto the platform. Cleaning solution is sprayed onto the boot and brushes. We recommend using Alpet® No-Rinse Quat Sanitizer to aid in the cleaning of footwear prior to sanitizing (sanitization can only occur on pre-cleaned footwear). The user moves their boot back and forth through the brushes supplying the mechanical scrubbing action. The BSX100 is ideal for tight spaces and low traffic applications.

BSX400-DAF	–	Boot Scrubber w/ Sanitary Leveling Feet - Wet
BSX200-W	–	Walk Through Manual Boot Scrubber - Wet
BSX200-D	–	Walk Through Manual Boot Scrubber - Dry
BSX100-W	–	Single Manual Boot Scrubber - Wet
BSX100-D	–	Single Manual Boot Scrubber - Dry

# FOOTWEAR SANITIZERS

Reduce pathogens from footwear with the new HACCP SmartStep2 or the original HACCP SmartStep Footwear Sanitizing Unit, and Alpet D2 or Alpet D2 Quat-Free Surface Sanitizer. Ideal for dry processing facilities.

The new HACCP SmartStep2™ Walk-Through Dual Footwear Sanitizing Unit is a foot-operated system that requires no electricity, and uses compressed air to deliver an atomized spray of Alpet D2 Surface Sanitizer or Alpet D2 Quat-Free Surface Sanitizer to the bottom of footwear soles. Ideal for operations requiring faster throughput.

Adding a Flex Tip Mat with one of our **Dry Step Floor Treatments** provides a sure-footed surface for exiting the sanitizing station - see page 18

SmartStep Sanitizing Unit w/ Handle

SmartStep Sanitizing Unit w/ Scrubber and Handle

This foot-operated unit uses compressed air to deliver an atomized spray of Alpet D2 or Alpet D2 Quat-Free Surface Sanitizer onto footwear soles. This spray provides ample coverage to footwear soles, yet uses only 0.2 ounces of chemical, which minimizes chemical waste and improves moisture control. The reduced footprint means you can place multiple units throughout the facility.

BSI #	Hydrite #	Product Description
ADB0003	–	HACCP SmartStep2 Walk-Through Dual Footwear Sanitizing Unit
ADB0002	–	HACCP SmartStep Footwear Sanitizing Unit
ADB0002-MH	–	HACCP SmartStep Sanitizing Unit w/ Handle
ADB0002-BS	–	HACCP SmartStep Sanitizing Unit w/ Scrubber & Handle
USP20031	–	Scrubber w/ Handle Only
USP10223	–	Debris Shield for SmartStep Scrubber
USP10227	–	Mounting Base for HACCP SmartStep and Boot Scrubber (ADB0002-BS)
USP10254	–	Mounting Base for HACCP SmartStep (ADB0002)
USP20032	–	Sole Replacement Brush for Boot Scrubber (USP20031)
USP20033	–	Side Replacement Brush for Boot Scrubber (USP20031) (Single Brush)
USP10229	–	Spray Shield for HACCP SmartStep (no hardware)
USP10230	–	Spray Shield Conversion Kit for HACCP SmartStep (including hardware)
SS10002-BSS	FP900904	Alpet D2 Surface Sanitizer 5 gallon pail w/ insert & dip tube (for use with ADB0002 & ADB0003)
SS10031-BSS	–	Alpet D2 Quat-Free Surface Sanitizer 5 gallon pail w/ insert & dip tube (for use with ADB0002 & ADB0003)
SS20001	–	Alpet D2 Secondary Container 2.5 gallon pail (empty) w/ hang tag and SS mounting bracket (for use with ADB0002-ADB0003)
SS20013	–	Alpet D2 Quat-Free Secondary Container 2.5 gallon pail (empty) w/ hang tag and SS mounting bracket (for use with ADB0002-ADB0003)
USP20028	–	Safety Feed Adaptor (for use with SS10002-BSS and SS10031-BSS)
USP20027-SM	–	Flex Tip Mat - Small (24" x 32")
USP20027-L	–	Flex Tip Mat - Large (36" x 72")

## WE'RE WITH YOU **EVERY STEP** OF THE WAY

Stop pathogens in their tracks! Sanitizing footwear helps reduce cross-contamination in production and other critical control points. Combine the HACCP SmartStep2™

Dual Footwear Sanitizing Unit with Alpet® D2 or Alpet® Quat-Free Surface Sanitizer to create a powerful tool to reduce cross-contamination from footwear.
