

Cooling Tower Case Study

By adding Hydrite's EPA registered peracetic acid to the cooling towers, producers will see:

- A reduction in slime forming bacteria
- Improvements in heat transfer and process control
- Reductions in treatment and energy costs

Hydrite offers EPA registered peracetic acid to assist in the destruction of slime forming bacteria in cooling tower packing.

(Above) Before Hydrite's EPA registered peracetic acid addition, slime forming bacteria levels were high resulting in poor heat transfer and frequent cooling tower packing (fill) replacements. After Hydrite's peracetic acid addition, cooling tower slime forming bacteria was dramatically reduced and cooling tower performance increased.

*slime forming bacteria levels were compared using Adenosine Triphosphate (ATP) measurements.

Hydrite specializes in the investment of our customers and servicing them with manufacturing and operational solutions.

Technical Expertise | Manufacturing Capabilities and Flexibility

The HYDRITE Advantage

Chemical Experts

Our team is experienced and dedicated to providing technical support and services that help maximize efficiency and profitability all while maintaining or enhancing the quality of your end-product. Partner with Hydrite to see how our people make the difference.

Customized Programs

Every plant is unique and we understand that. We customize a solution for each location and application. Contact us today to learn more about our quality products, services, technology, and solutions.

Quality Focus

We understand how important it is to protect your brand and maintain the trust your customers place in you. Let us help you by delivering a quality solution at the most efficient cost.

Customer Service

At Hydrite, we form partnerships with our customers and provide them with the best possible and most efficient operational solution. Contact us today to see how we are different.

Supportive Approach

We feature a variety of creative solutions designed to lower operating costs, improve efficiency, and help you protect your brand. Join the many satisfied Hydrite customers that have experienced the Hydrite Advantage.
