Providing Creative Solutions

Lab Services

Hydrite provides product testing services for our customers in the form of chemical analysis and product performance testing. Our chemists are experienced formulation experts and are here to help customers with product development and industrial support.

Technical Support

Hydrite's dedicated chemists, engineers, and technical service staff have extensive knowledge and experience in solving the most challenging formulating problems. Hydrite has a strong commitment to quality and customer service.

Supply Chain

Due to Hydrite's years of experience in manufacturing sensitive formulations we understand not every chemical equivalent is a drop in replacement. If you are single sourced and need assistance to find products to fit your formulation needs, please reach out to your Hydrite Account Manager to see how we can help.

Custom Blending & Toll Manufacturing

We offer superior products, innovative solutions, and chemistry blends with product testing as well as quality and control standards.

FDA regulated, EPA regulated, Cosmetic, OTC and Hard Surface Solution Blending
